COSMOGONY AND COSMOLOGY

BY DR. M. DOREAL

The Mystery of the Universe is contained in the Unwritten Kabbala; the Keys to the Understanding of the formation of the earth, the beginning of man and of his evolution to the consummation are veiled in its symbolism. In the old Kabbalistic Mystery Schools these keys were taught to the select few. Because they were never written, the Occult Wisdom of the Kabbala, the Sepher Yetzirah, the Book of Concealed Wisdom, and the rest of the Ancient Teachings have been lost to the world at large. The findings of modern Science have not as yet even scratched the surface of the Great Knowledge which the Ancient Races knew about the Laws of Creation and of the manner in which the Supreme Hidden One manifested in the material.

The Mysteries which Doreal has given in this book are much too great and all-encompassing to iterate in this review. May it suffice by saying that COSMOGONY AND COSMOLOGY is more than a history of Universal events, for he has shown the coming forth of the Laws of Creation while they were in the World of Formation even before the Cosmic Condensation became manifest.

THE INNER EARTH

By

DR. M. DOREAL

(Part Two)

We will now examine the Tidal Hypothesis. Science believes that some two million years ago a great star moving through space came close to our sun. Just as the sun and moon raise tides on the earth, the gravitational pull of the star raised great tides on the surface of the sun. This great tidal wave passing over the surface of the sun, ultimately formed a mountain of prodigious height, which raised ever higher as the cause of the disturbance came nearer and nearer, and before the star began to recede, its tidal pull became so powerful that this mountain was torn to pieces, and threw off fragments of itself. The fragments have been circulating around our sun ever since. They are the planets, of which our earth is one. By their circular motion, they, in a semi-solid state, became the approximate round masses that they now are. As they continued to move outward they were deflected by the star and thus proceeded to move around the sun in one direction, and nearly in one plane.

These theories of the formation of the planets are the ones that are generally accepted by science. What the real formation of them was, I have given in an article on "Cosmogony", but now we are going to examine our own planet earth.

At the center of the earth is a central nucleus of a gaseous substance; surrounding this is a solid ball of a metallic substance which is unknown on the surface of the earth. This gaseous substance is almost one hundred miles in diameter. The central solid core is a little over one thousand miles in diameter. Between this solid core and the inner surface of the earth, is a space one hundred and twenty-five miles wide, filled with another gaseous force in which the central core is suspended. Within this inner surface are great caverns and passages leading to the outer world.

Around the entire earth, situated about three hundred miles below the surface, is a great channel or passage that follows the approximate line of the equator. Branching off from this are two other main channels, and from these in turn branch other smaller passages. At the four junctions of the main channels are chambers or openings into the main channels. In these openings are set a

lens of a crystal that focuses a force into both, the third and fourth dimensions. Branching from these larger channels are sixteen other smaller ones, with a smaller chamber at the junction of each. Within this channel is a pyramid shaped mass comprised of a substance that is akin to radium and yet is not radium. This is approximately 2500 feet long at the base, 280 feet wide, and 500 feet high, and this mass moves in a groove cut deeply into the floor of the channel. This pyramid shaped mass, which I have likened to radium, is not a solid, but a semi-solid, fluidic substance infinitely more powerful than radium. This pyramid of force does not move, but the earth rotates beneath it while the pyramid ever keeps its tip in a direct line with the sun.

The pyramid of force throws off, or sends out, a vibration that diffuses throughout the surface of the earth; and coming into contact with certain chemical combinations within the earth's crust, forms the metals and metallic substances within the earth. This vibration, when it passes from the earth, and enters the atmosphere, combines with a certain element within the atmosphere, and from this combination comes that latent force we call electricity. This can be brought into manifestation by man, through the

use of accumulators and from them is discharged the latent force we know as electricity.

The Brotherhood Newsletter

Dear Students and Friends:

Our beautiful Fall weather is continuing right on with the fast-stepping October days. So far we have had no drastic changes in temperature, only a gradual changing to a cooler state. The Fall coloring of the foliage is most fantastic, with the yellows, orange, reds and browns against the green background of the conifers.

We were all saddened to hear of the passing of Dr. C. F. Huerta of Alice, Texas. Dr. Huerta was one of the Ministers of the Brotherhood ordained by Dr. Doreal. He has been a most devoted Brotherhood Member for many, many years. We rejoice that he has been called to fulfill a special place in the future.

The Neophyte Class Sunday evening touched on the different beliefs of mankind over the world concerning reincarnation. The Brotherhood teaches that the soul that has passed through transition, reincarnates within seventy-two hours into a body of a babe. The soul never incarnates in an animal body, according to the true esoteric teachings. It is in accordance to the causes set up by the

individual, in what kind of a human body the soul chooses for its next incarnation. If an individual has attained his full Illumination he does not have to come back to the material world. He may go to a higher plane of spiritual endeavor or he might choose to come back to the material world to perform some special task in the Cosmic scheme.

We have had many visitors in Shamballa this past week, from far and near. Many young people come to our door daily. They are all seeking to know the truth of existence; where they came from; where they are going and how to get there. The Brotherhood Teachings have the answers.

The Shamballa Board is giving a Halloween party for Shamballa parents and their children, Saturday, October 28, 1972, at 7:00 p.m. at the Firehouse. The Fireflies are furnishing the treats for the children. All Shamballa parents and their children are cordially invited.

In Cosmic Harmony,

Dr. W. Whitby

YOGA

THE YOGA OF LIFE

By

DR. M. DOREAL

It is an absolute fact that the degree of our health, or the amount of sickness we have depends in a very great measure upon the amount of life force in the body.

People have wondered how it is that the Masters and Teachers in the Far East have the power to have lived for hundreds of years.

Exercises and techniques are given in this book so that one may bring about that inflow of life energy. The Exercises and techniques must be ~~also~~ very carefully and in the proper manner to get the proper results.
